Our families of origin have had a profound effect on how we live our lives. We can gain more freedom and flexibility by revisiting our initial family conditioning and reshape our lives by transforming these patterns.

Through the constellation process we can get to the root of the deep unconscious family patterns and transform lifelong habits. Each participant will have the opportunity to explore family dynamics by either setting up their own family constellation or being a representative in another family system.

- ♥ Free yourself and be more alive.
- ♥ Become aware of and break free from conditioning.
- ♥ Learn how our family of origin has shaped our lives.
- ♥ Find inner strength and resources to be who you really are.
- ♥ Do more of what you really want.
- ♥ Heal issues of partnership, addiction, fears, guilt, or illness.
